TRUSTEES' REPORT.

To His Excellency the Governor and the Honorable Council.

We have the honor to present the eleventh annual report of the trustees of the Gardner State Colony.

Our requests for special appropriations for the coming year are few. We have constructed the cottages for 16 patients each, and they are now occupied. They have the advantage not only of a low per capita cost (\$350) but give to those patients who are fitted to occupy them greater privacy and nearer approach to normal methods of living than have yet been obtained in larger buildings. With increased knowledge on the part of the public of methods of caring for the quiet insane, and with an increase in the visiting force of the State, it may be possible to graduate patients of this class to their own homes where they still have relatives able to care for them. We are therefore asking for two more cottages of this character.

In order to give further opportunities for normal life, the trustees deem it important to provide some commodious meeting place, both for religious services and for the social meetings of the patients and attendants. We ask for a chapel and meeting hall, to be erected near the main group of buildings.

While we do not ask this year for further accommodations for officers and attendants, the trustees expect in the near future to ask for a few small cottages where men may live with their families while employed by the colony. It is beginning to be evident to all that intelligent and earnest people are not content to devote their lives to the care of the insane if they themselves are given no opportunity to live apart from those under their care. The single man and woman must be depended upon for a large share of the care of insane patients, but the Common-

wealth should be prepared to retain the services of valued employees by offering not only decent pay but accustomed methods of living. Only in such way can intelligent supervision and a competent teaching force be secured.

Our crops during the past season, despite the unprecedented drought, have proved satisfactory. We have, for example, raised sufficient potatoes to supply the colony for the year, and our supply of winter vegetables is equally gratifying. We commend the reports of the superintendent and head farmer to your attention.

EDMUND A. WHITMAN.

WILLIAM H. BAKER.

ALICE M. SPRING.

AMIE H. COES.

WILBUR F. WHITNEY.

GEORGE N. HARWOOD.

JOHN G. BLAKE.

SUPERINTENDENT'S REPORT.

To the Trustees of the Gardner State Colony.

I respectfully submit the eleventh annual report of the Gardner State Colony.

In matters relating to patients the year ends September 30, while those concerning finances are for the year ending Nov. 30, 1913.

PATIENTS.

On Oct. 1, 1912, there were at the colony, men, 424, women, 262, — a total of 686. During the year 66 men and 14 women have been admitted, as follows: 35 men from the Danvers State Hospital; 20 men from the Worcester State Hospital; 13 women from the Danvers State Hospital; 1 man from visit; 6 men nominally from visit; 2 men from escape; 2 men nominally from escape; 1 woman nominally from visit.

Fifty-two men and 33 women have been dismissed, as follows: 5 men capable of self-support; 4 men as improved; 3 men as not improved; 6 women as improved. Nine men and 5 women have died.

Twenty-seven men and 20 women have been transferred, as follows: 13 men to Medfield State Asylum; 12 men to Worcester State Asylum; 2 men to Worcester State Hospital; 9 women to Medfield State Asylum; 6 women to Worcester State Asylum; 1 woman to Tewksbury State Infirmary; 4 women to the State Board of Insanity.

Two men have escaped and have not yet returned. Two men and two women are out on visit, so our actual census for Oct. 1, 1913, is, men, 438, women, 243, — a total of 681.

The daily average during the year ending Sept. 30, 1913, has been 682, an increase of 12 over last year. The daily average during the financial year ending Nov. 30, 1913, has been 682, an increase of 12 over last year.

Although we have had several epidemics of contagious diseases, the general health of our patients has been good. During the months of December and January we had 80 cases of influenza, — 1 case was fatal.

During the months of February and March we had 2 cases of diphtheria and 2 cases of scarlet fever break out among the officers. All of these cases recovered.

During the month of March 5 patients and 1 employee had measles. All of these cases recovered with the exception of 1 patient, which case, complicated with pulmonary tuberculosis, died.

INDUSTRIES.

Our patients in our industrial buildings have made all the shoes, clothing, furniture, brushes, brooms, stockings, door mats, farm baskets, rugs and mattresses for the colony use, besides a large amount of reed and raffia baskets and fancywork of all descriptions which has been sold to visitors.

The men from the industrial building have been employed at grading about the main group every pleasant day during the summer, and in spite of this extra work have kept up the industrial products to our needs.

CONSTRUCTION AND BETTERMENTS.

Hillcrest cottage for 30 men was opened last December.

The two small cottages for 16 men each are completed; one was opened in October. These cottages are for our trustworthy men, and two congenial patients have a room together. Each room is provided with a clothes closet, a chiffonnier, a table and suitable chairs. Each patient has a place for his personal belongings, which is not possible in the dormitories. The only supervision in these cottages is two officers from the wards room in each cottage. The patients in these cottages are happy and contented, and their pleasant surroundings have not interfered with their work.

A concrete subway has been built from the power house to the main highway and later we hope to continue to the officers' cottages on the opposite side. The roof of this subway forms a cement walk 6 feet wide. Our steam, electric and water mains were formerly laid in tile and, in case of a leak, it was

necessary to dig up the line frequently, and besides there was considerable loss of heat. The subway will obviate these troubles.

The small frame building formerly used as an office building has been remodeled and is used as the superintendent's residence.

Electric lights and steam heat have been put in our general store.

A 50-foot propagating house has been added to the head house which was erected in 1909.

A second henhouse has been built at Hillcrest.

A new road has been built from the Westminster pumping station to Valley house.

The new cottage for 30 women patients is well under way and will be completed early next summer.

GENERAL.

In May Father McCann was appointed chaplain, and has held Mass every Sunday and responded to sick calls. The different clergymen of Gardner and Westminster have held services every other Sunday afternoon. Rabbi Robinson holds services once a month for our Hebrew patients. These services are a source of much happiness and comfort to our people.

The weekly ball game arouses much interest among our men.

Occasional trips to Gardner have been enjoyed by many, and over 100 of our people attended the Westminster fair in September.

Weekly dances for patients have been held, together with entertainments and birthday parties. For the past year we have had regular classes in the gymnasium, also a cooking school three afternoons a week for our younger women. Our officers have their weekly dancing school with a party each month.

As the majority of our patients at the colony are of the dementia præcox type, and as dementia præcox is a habit disorganization, it is our endeavor to re-educate our patients to regular habits or reorganize their habits.

Many of our dementia præcox cases have been insane many years and did not have a good education or high standard of

living before their insanity began, which necessarily means that the most we can hope to do for them is to reorganize their habits along some industrial line which will make them useful to the institution, as we cannot expect greater results with such a poor foundation to work on.

It is my firm belief that the dementia præcox case, who previous to his breakdown has had a fair education and a wholesome environment, if received early and conscientiously treated along the lines of re-education or habit reorganization, can be so improved that he can live at home. To successfully accomplish this work the physician should work directly with the patient, and by this I mean that he should himself take part in whatever he is trying to teach the patient.

Dr. H. H. Fox, a member of our staff since Jan. 6, 1913, resigned Sept. 4, 1913, to enter the army medical service.

Dr. T. W. Maloney was appointed to succeed Dr. Fox and entered upon his duties Oct. 3, 1913.

Dr. Marion E. Kenworthy was appointed woman assistant May 23, 1913.

The following physicians have been appointed on our consulting staff: Dr. A. F. Lowell, Dr. J. B. Donnelly, Dr. H. D. Bone of Gardner; Dr. A. E. Mossman of Westminster. Staff meetings are held every Monday and Thursday morning.

RECOMMENDATIONS.

This year I recommend the erection of two of the small cottages for 16 patients each. A barn at Hillcrest cottage is much needed as at present the cattle are housed in a shed which was built of old lumber, and there is no provision for storing necessary farm supplies.

I also recommend the erection of a slaughter house as at present we have no suitable place for slaughtering; also an addition to the barn at Belcher cottage as we do not have sufficient room to tie up young stock in the winter and no place to store our wagons and implements at present.

I also recommend the erection of a chapel and assembly hall as at present our facilities for chapel services and entertainments are very inadequate.

I recommend the purchase of an automobile truck, which would enable us to do our trucking from Gardner with more dispatch and less injury to our horses.

An automobile for the ordinary colony business is needed as the present one has been in almost constant use for two years, and has reached the state when frequent repairs are necessary.

CONCLUSION.

I wish to thank the Board of Trustees for their unfailing co-operation and advice. Acknowledgment is also due the advice and co-operation of our consulting staff as well as the work of our resident staff and of all our officers.

Respectfully submitted,

CHAS. T. LA MOURE,
Superintendent.

FARM REPORT.

To the Superintendent of the Gardner State Colony.

It has been our aim to use more intensive methods on the farm during the past year. Previously, a large portion of our cleared land had been only partially subdued, and this land we have endeavored to build up and render in a higher state of cultivation and productiveness.

We believe it to be more economical to farm our present cleared land intensively than to add a large acreage of inferior land to that which we now cultivate.

We have, however, done considerable work on the meadows south of the Gardner group and also on the meadow joining the Westminster pump house. Several acres of the meadow at the Gardner group have been grubbed over and the stones cleared out. About one-half of an acre of this land was planted to various crops as an experiment, and the yields were far better than corresponding crops planted on other fields. This land is adapted to the growing of hay more than any land which is now being cultivated, and we wish as soon as possible to get this land producing hay.

Crops in general have been very satisfactory considering that there has been a general shortage of crops throughout the country. The yield of ensilage corn, hay and other forage crops has increased more than 25 per cent. over the product of last year. The production of eggs, milk, poultry, beef and pork has also increased in as great proportion. All vegetable crops yielded well with the possible exception of potatoes. There will, however, be an abundance of potatoes and other vegetable crops to supply the colony for the present year.

Considerable work was done in the woods last winter, clearing up the undergrowth and thinning out the thickly wooded growth of lumber and cordwood. Nearly 150 acres of woods

were gone through in this manner. Fifty thousand feet of lumber and approximately 400 cords of wood were cut out.

Other outside work done includes 500 tons of rock crushed; excavating for about 600 feet of subway for water and heating pipes for the Pine cottages, and the excavating for the new cottage for women. A 300-foot sewer line was put in for the new Pine cottages. About 5,000 square yards of grading have been done around the various groups of buildings. Ten acres of new land were plowed and planted to crops. Several stone walls have been torn down and the stone used for road building, and more than 2,000 tons of field stones have been removed.

The above, together with the general farm work, and the numerous odd jobs which constantly arise in a growing institution have kept all the outside patients constantly employed.

Respectfully submitted,

WARREN L. IDE,
Head Farmer.

¹ Reverting to treasury of the Commonwealth.

Respectfully submitted,

CHAS. T. LA MOURE,
Treasurer.

Examined and found correct as compared with the records in the office of the Auditor of the Commonwealth.

WARREN A. MERRILL,
Assistant Supervisor of Accounts.

STATISTICAL TABLES.

[FORM PRESCRIBED BY THE STATE BOARD OF INSANITY.]

1. — General Statistics of the Year.

	INSANE.		
	Males.	Females.	Totals.
Patients in the colony, Oct. 1, 1912,	424	262	686
Admitted within the year,	66	14	80
Viz.: by transfer,	55	13	68
from visit,	1	—	1
nominally from visit,	6	1	7
from escape,	2	—	2
nominally from escape,	2	—	2
Whole number of cases within the year,	490	276	766
Dismissed within the year,	52	33	85
Viz.: discharged,	12	6	18
as recovered at the time of leaving the hospital,	—	—	—
as capable of self-support,	5	—	5
as improved,	4	6	10
as not improved,	3	—	3
as not insane,	—	—	—
died,	9	5	14
transferred,	27	20	47
escaped,	2	—	2
on visit Oct. 1, 1913,	2	2	4
Patients remaining Sept. 30, 1913,	438	243	681
Viz.: supported as State patients,	432	241	673
as private patients,	—	—	—
as reimbursing patients,	6	2	8
Number of different persons within the year,	482	279	757
Number of different persons admitted,	58	13	71
Number of different persons dismissed,	44	32	76
Number of different persons recovered,	—	—	—
Number of different persons discharged capable of self-support,	5	—	5
Daily average of patients,	431.919	250.444	682.363
Viz.: State patients,	428.449	246.594	675.043
private patients,	—	—	—
reimbursing patients,	3.47	3.85	7.32

2. — *Received on First and Subsequent Admissions.*

NUMBER OF ADMISSION.	CASES ADMITTED.		
	Males.	Females.	Totals.
First (to the colony),	54	13	67
Second (to the colony),	12	1	13
Total cases,	66	14	80
Total persons,	58	13	71

3. — *Age of Insane at First Attack and Death.*

AGES.	PERSONS DIED.					
	AT FIRST ATTACK.			AT TIME OF DEATH.		
	Males.	Females.	Totals.	Males.	Females.	Totals.
Congenital,	4	1	5	—	—	—
15 years and less,	—	—	—	—	—	—
From 15 to 20 years, . . .	1	—	1	—	—	—
20 to 25 years,	—	—	—	—	—	—
25 to 30 years,	2	—	2	1	—	1
30 to 35 years,	—	1	1	—	—	—
35 to 40 years,	—	2	2	1	—	1
40 to 50 years,	2	1	3	4	1	5
50 to 60 years,	—	—	—	3	2	5
60 to 70 years,	—	—	—	—	2	2
70 to 80 years,	—	—	—	—	—	—
Over 80 years,	—	—	—	—	—	—
Total,	9	5	14	9	5	14
Unknown,	—	—	—	—	—	—
Not insane,	—	—	—	—	—	—
Total persons,	9	5	14	9	5	14
Mean known age (in years),	17.7	30.4	24.05	45.2	58.2	51.7

4. — *Form of Mental Disease in Patients admitted or discharged, with their Condition on Discharge, or died.*

FORM OF MENTAL DISEASE.	ADMITTED.			RECOVERED.			DISCHARGED CAPABLE OF SELF-SUPPORT.			IMPROVED.			NOT IMPROVED.			NOT INSANE.			DIED.			TOTAL DISCHARGES AND DEATHS.
